We are excited to announce that this August, during the height of ʻulu season, MNBG will be hosting a new event: Lā ʻUlu (Breadfruit Day!). Long ago, ʻulu (breadfruit) plantations managed by complex Hawaiian hierarchies stretched from Lahaina to Wailuku1. This is expressed in the ʻōlelo noʻeau “Halau Lahaina, malu i ka ʻulu.” “Lahaina is like a large house shaded by breadfruit trees”2. Many people on Maui today have no idea how delicious and versatile this ancient Pacific staple can be. Thanks to people like John Cadman, owner of Maui Breadfruit Company, ʻulu is making a comeback. In partnership with the Maui Breadfruit Company and Ulupono Initiative, the Lā ʻUlu celebration will be held at Maui Nui Botanical Gardens on Saturday, August 26. Activities will include food booths, cooking demonstrations, Pacific ʻulu varieties for sale, research updates and horticultural information. Our traditional August multi-grower Native Hawaiian plant sale will be held at this event, along with entertainment, free cultural activities, and Hawaiian games.

ʻUlu is two different foods depending on ripeness – at the firm stage, it’s a starch that substitutes beautifully for potato; at the ripe stage, a sweet, creamy custard. Besides food, traditional uses include using fruits to feed pigs, dogs, and fish; wood for poi boards and surfboards; a rough kapa (poʻulu) from the bark; dye and sandpaper from the male flower parts; and a widely used adhesive from the latex3. A single ʻulu tree is fast-growing and can produce from 350 to 1,000 pounds of fruit per year! It’s non-invasive, grows from sea level to 5,100 feet elevation, and provides deep shade2.18th century were the ones who gave ‘ulu its English name, “breadfruit”, because they thought that the roasting fruit smelled like freshly baked bread4. Banks had an oversimplified romantic view of life in Tahiti commonly held by Europeans of that time. He wrote, “scarcely can it be said that they earn their bread with the sweat of their brow when their chiefest substance Breadfruit is procur’d with no more trouble than that of climbing a tree and pulling it down.” Later Banks fostered the voyage of Captain Bligh to procure breadfruit trees to plant to feed British - owned slaves in the Caribbean, on which the famous “mutiny on the Bounty” took place4.

The history of ʻulu in Hawaiʻi is complex. In spite of taking a secondary place to kalo and ʻuala, ʻulu is deeply intertwined in the culture, from the uniquely

Continued on page 2
John Cadman of Maui Breadfruit Company will share recipes August 26

Like each of Maui County’s native and canoe plants, the story of ‘ulu runs deep. Come to Breadfruit Day on August 26 and taste a bit of Hawaiian heritage. You may be inspired to find the perfect spot to plant your own ‘ulu tree for future generations.

‘Ulu can be savory, sautéed here with herbs in coconut oil

‘Ulu can be sweet, here as a chocolate pudding base

Hawaiian ‘ulu maika bowling game, to the Nā ‘Ulu cloud that was first named on the Big Island for the cloud that forms every afternoon over Kona at the elevation where the Kona field system ‘ulu plantations extended for miles7.

‘Ulu is a primary staple in much of the Pacific, especially in the Marquesas, Samoa, Tonga, Tahiti, and Fiji, where more than 100 cultivars are named. Only one pre-contact Hawaiian cultivar has been recognized, a variety which corresponds to the Samoan ‘ulu e’a and is widespread on other island groups1, 6. There are only inconclusive ideas about why this may be so, including the shorter fruiting season (6 months in Hawai‘i versus 10 months in other parts of Polynesia)6, and the possibility of a later introduction by Hawaiian voyagers1, 6.

Various similar Hawaiian legends attribute the origin of ‘ulu in Hawai‘i to a man or god buried; from his body grew the first ‘ulu tree to provide his family with food. ‘Ulu is one of the kinolau (body forms) of Kū, god of war, as well as his mother Haumea, patron of child-birth, and is sacred to Kāne, the god who introduced cultivated plants1, 8. Planting an ‘ulu tree near the home at the birth of a child is common elsewhere in Polynesia to metaphorically and sometimes literally ensure a life-long food supply8.

Upcoming Workshops

Saturday, May 27, from 9:00 AM to 3:00 PM: Kapa Making Workshop with Lisa & Lei
In this in-depth, hands-on workshop, students will learn special techniques regarding the cultivation and maintenance of wauke plants, the harvesting and processing of the fiber, proper tool design and use, and traditional practices for making cloth with skilled kapa makers, Lisa Schattenburg-Raymond & Lei Ishikawa. Workshop fee includes all materials. Cost: $125, or $100 for current garden members. Email info@mnb.org for reservations.

Saturday, June 10, from 9:00 AM to 3:00 PM: Dye Making Workshop with Lisa & Lei
Participants will learn innovative processing techniques of many Hawaiian plants, and other materials, to produce traditional natural dyes used on kapa cloth! Lisa Schattenburg-Raymond and Lei Ishikawa will share information on identifying, collecting, preparing dyes, and the use of natural additives to manipulate color. Cost: $125, or $100 for current garden members. Call 249-2798 or email info@mnb.org for reservations.

Saturday, August 5, from 9:00 AM to 12:00 PM: Kalo ‘Āi A Ko’u Makua with Namea Hoshino
Participants will learn to huki kalo (harvest taro), understand the differences between ‘āina wai (wetland) and ‘āina malo‘o (dryland) varieties, and ku‘i kalo (pounding taro). A tasting of various kalo cultivars will also be included. Cost: $50, or $25 for current garden members. Email info@mnb.org for reservations.
With Gratitude from Our Garden:
Ulupono Initiative for sponsorship of upcoming Lā ‘Ulu event, Vanessa Medeiros for yard sign stakes, Malafu Contractors LLC. for wood chips, Maui Eko Compost for multiple compost and mulch donations, arborist Jeff Gray for dump truck services, Tom Takeuchi for garden gloves, Anna Mae Shishido for volunteer drinks, Cindy Singer for volunteer drinks, Shirley Miyasaki for towels and rags, Maggie Sniffen for gardening gloves and rags, plates and work horses, Connie Luk for garden gloves, Anne & Bill Ripperger for 5-gallon buckets, Janet Allan for volunteer drinks, Native Nursery for donation of ‘ohe makai, Kaiser Permanente Hawaii for paint and tools, and Maui Forest Bird Recovery Project for kanawao, kōlea, ‘a’alii, and ‘ōhi’a lehua seeds.

MNBG Contributions to the Community:

Mahalo to our Interns & Volunteers:
Justin Lee, Charleston Mahi’ai Jr., Lance Oktrasinski, Eldaine Gojonera, Jenver Aguinaldo, Tamulei & Kui Ross, Justin Santiago, Cherlyn Cordero, Dustin Wright, Kaipo Park, Kevin Carvalho, Joshua Frick, Karen Pollard, Ivy Luedtke, Eric Burgess, Erika Magarifuji, Keiki O Ka’Aina/Pauahi Scholar volunteers, and the employees of Hawaii Permanente Medical Group and Maui Memorial Medical Center.

Wish List

- Garden gloves (all sizes)
- Rakes (leaf or landscaping)
- Medium sized picks
- Shovels
- Sickles
- Hand pruners (clippers)
- Outdoor tables & chairs
- Hawaiian Miles (for interisland travel for staff training)
- Handicapable gardening tools: for ideas, visit http://disabilityworktools.com and click “Gardening”

*If you would like to contribute to the purchase of one or more of these items please call 808-249-2798.

Pots: We are no longer accepting drop offs of used plastic pots. If you have new or used cement or ceramic pots to donate, please give us a call and we will be happy to arrange a pick up.

NEW! Check out MNBG’s wish list on AMAZON by visiting this link: http://a.co/eWBZKw3

MAUI NUI BOTANICAL GARDENS

MISSION STATEMENT

The mission of the Maui Nui Botanical Gardens is to foster appreciation and understanding of Maui Nui’s plants and their role in Hawaiian cultural expression by providing a gathering place for discovery, education, and conservation.

Give Online! Make a donation, pledge or renew your membership by visiting www.mnbg.org and clicking on “make a donation.”
Mahalo e Kaiser Permanente Hawaiʻi!

On Monday, January 16, while many had the day off to celebrate Martin Luther King Day, 170 volunteers reported to Maui Nui Botanical Gardens for the 2017 Kaiser Permanente Hawaii Annual Day of Service. Maui Nui Botanical Gardens is deeply grateful to Hawaii Permanente Medical Group, who coordinated the event, and Kaiser Permanente Hawaii, which provided a $2,300 grant to MNBG for new tools.

The physicians, providers, staff, and their family members who participated, including several leaders from Maui Memorial Medical Center – helped MNBG significantly by planting a new Hawaiian medicinal garden, taking on painting projects, improving the sugarcane collection, moving gravel, and preparing plant materials for future school visits.

Mahalo nui to these volunteers and to MNBG’s “Weed and Pot Club” volunteers for helping us lead the projects. We also wish to thank Jeff Gray, Arborist, for trucking, Maui Eko Compost for donation of mulch, and Grow Some Good for loaning garden tools.

Legacy Tree Planted at Arbor Day 2016

With the help of Maui Electric Company, MNBG gifted more than 1,000 Hawaiian trees to the community at the annual Arbor Day 1,000 Hawaiian Tree Giveaway held in November 2016. Event sponsors commemorated the occasion with a ceremonial planting of an ‘ōhe makai (*Polyscias sandwicensis*). ‘Ohe makai is one of the few native Hawaiian trees that seasonally sheds all of its leaves. Although it has become rare in its natural habitat, it can still be seen in Maui, on leeward Haleakalā.

Mahalo nui to the County of Maui and the entire team at Maui Electric Company!

Mahalo e Kaiser Permanente Hawaiʻi!

Guided Tours & Activities

MNBG’s staff and volunteers led guided tours and cultural activities for many residents, visitors and schools this season. Visiting schools and programs included MEO preschool, Imua Family Service Preschool, Tutu & Me Traveling Preschools, Kahului Elementary School Kindergarteners, Waiheʻe Elementary School 5th Grade, Lānaʻi High & Middle School 8th Grade Band, Baldwin High School’s Workplace Readiness Program, Maui High School Students, Kamehameha Schools Maui Staff Huakaʻi Program, UH-MC’s student leadership conference participants, UH-MC’s Hawaiian Ethnobotany classes, UH-MC’s Photography class, UH-MC Biology 101, UH-MC’s Muʻo Aʻe Program Participants, UH-MC Environment & Ecology Class, UH-MC Maui Language Institute, Maui Family Support Services, Travel for Teens, and Kaunoa Senior Center Lahaina.

Group tours and cultural activities at MNBG are available by appointment only. Call 808-249-2798 or email info@mnbg.org for reservations at least 2 weeks in advance. Contact the Gardens office for student and nonprofit rates.

Ulupono Initiative, and the Maui Office of Economic Development
**Banana kāhuli (mutants) in the Garden** by Kaulana Pu’u

This mai’a (banana) is a keiki (offspring) of a variegated Manini cultivar. It is normal for Manini keiki to have some white stripes along the green leaves, but to be completely lacking of chlorophyll, the cells in plants that give them their green color and produce nutrients through photosynthesis, makes this keiki a freak of nature.

This offspring will either die of malnutrition or become a parasite on the other mai’a that is attached to the same root clump. However, the chances of becoming a parasite are very slim and will not stop the mai’a from producing more keiki and continuing its lifecycle.

**Kalo ‘Āi A Koʻu Makua**

by Namea Hoshino

From the origin of Hāloanakalaukapalili a stillborn child of Wakea (Father Sky) & Ho’ohokukalani manifest into the first Kalo (taro) plant. Later, a second child was born named Hāloakanaka who became the first human. For centuries, Native Hawaiians have continued to share the oral history of Hāloa and the ancestral knowledge of kalo cultivation in Hawai‘i.

It was estimated that 325 kalo varieties once existed in Hawai‘i before western arrival. Today, approximately 80-90 remain. I will be conducting a workshop on Saturday, August 5th, called “Kalo ‘Āi A Koʻu Makua” (Kalo that feeds me is my parent). For more details, see page 2.

**Seed Banking**

by Joshua Frick

Hello. My name is Joshua Frick and I serve with Maui Economic Opportunity AmeriCorps program at MNBG as the Seed Banking Assistant. At first glance the work I do doesn’t seem too exciting. I sit at a desk and count out individual seeds from many species of plants. Some are large and easy to count (such as *Ca-navalia pubescens* or ‘Āwikiwiki). Others are so small you may want a microscope. I then take the seeds and plant a sample to see if the seeds are viable. Then I wait…and wait. For weeks I may have to wait before they start to germinate. Then I start counting seedlings. In one day I could be counting 1000 or more seeds and plants! However, there is more to it that makes it more interesting and enjoyable. I’m working with many native endangered plants! Being a biologist, I am constantly concerned with the preservation of ecosystems for future generations to enjoy. The most exciting thing I see which gives me the drive to continue each day is looking at an endangered plant that’s starting to germinate and thinking “I am preserving this species!”
If you love working with native plants, you’ll love the Weed & Pot Club! This volunteer gardening group meets every Wednesday morning, from 8:30 AM to 10:30 AM. Spend your morning helping the Gardens thrive through weeding and propagation. Come prepared to work with covered shoes and gardening attire.

MNBG appreciates Kaunoa’s RSVP partnership for its support of MNBG volunteers. Like MNBG, Kaunoa provides opportunities for people 55 and better to learn and grow through a variety of programs throughout Maui Nui.

Call (808) 270-7986 for more information.

**Check Out What’s Blooming!**

**Hīnano**

Hīnano is the Hawaiian name for the male flower of the hala tree (*Pandanus tectorius*). In ancient Hawai‘i, it was used as an aphrodisiac. A person would pick the entire stem of flowers and chase their love interest with it. Upon catching them, the pursuer would beat the chased on the head with it. The pollen freed by this action, covered the head and would cause the pursued to fall in love. The sweet smelling pollen was also used to preserve feather cloaks and lei.

We are extremely grateful to all who have made donations to the Gardens over the years.

We make every effort to assure an accurate membership list; however, if your name was omitted or misspelled, please contact us at info@mnbg.org and we will be happy to update our records.
Yearly memberships help to fund important botanical and educational programs, research and conservation efforts. Fill out the enclosed donation envelope or call 249-2798 to become a member.

Donations of monetary or in-kind contributions are greatly appreciated. To contribute, please fill out the enclosed donation envelope, call 249-2798 or visit www.mnbg.org to donate online.

Play a lasting part in protecting Hawai‘i’s native plants through planned giving. Consider making a bequest to the Maui Nui Botanical Gardens in your will or trust. Call 249-2798.

Kupa means to sprout or grow. Just like the kupukupu ferns, you can help the Gardens grow through donations, memberships, bequests or by volunteering. Your contribution helps to ensure the survival and perpetuation of native Hawaiian plants and culture.

Give a gift of time. Volunteering at MNBG helps the Gardens accomplish many projects and also gives you an opportunity to learn about and work with native plants. Join our Weed & Pot Club every Wednesday morning from 8:30 am - 10:30 am. Call 249-2798 or visit www.mnbg.org for more information.
